

FLEXCAR - Car-sharing: it's transportation, simplified.

And it has come to the University of Southern California!

Flexcar has partnered with USC to bring environmentally-friendly car-sharing to your campus.

What is Flexcar?

Flexcar is a car-sharing company that offers members convenient access to our fleet of modern, low-emission vehicles by the hour – so you don't have to pay a fortune to own your car or go through the hassle of renting one. You buy pizza by the slice, download music by the song... why not pay for cars by the drive? We currently have 9 vehicles on or near campus to choose from!

Who would use a Flexcar?

Students, faculty, friends, neighbors and staff. In fact, anyone who has a need to get around LA, haul stuff home from the grocery store or shopping center, pick up family members at the airport, or take a weekend excursion.

How much does it cost?

Normally there is a \$35 annual membership fee. **But in the month of September 2007, USC students can join for free!** If you're under 21, just use promo code [sept181](#) when joining; or if you are 21 or older, use promo code [sept211](#). (Do not use the regular promo codes shown below.) You will need to provide your student ID as validation. This offer is only open to eligible new Flexcar members, and cannot be combined with any other discounts or promotions, including referral credit.

Plus, if you're an active member, membership will be free next year, too! Just drive at least twice before your anniversary date and the next year is free. So, join and drive today!

How does it work?

Once you sign up to become a member, we'll send you a Flexcard. This is your electronic "key" that opens the cars. Just make a reservation online for any available car, touch your Flexcard to the windshield reader, hop inside and off you go. When you are done, return the car to its assigned parking space and lock 'er up. It's that simple.
