

Earthquake Preparedness:

What Every Person In LA Needs to Know

University Park Campus

WED, MAR 9 12-1PM

Grace Ford Salvatori, GFS 106

Health Science Campus

TUES, APR 12 12-1PM

Norris Medical Library East Conference Room

In this 1-hour presentation participants will learn about the latest earthquake threats facing Southern California. You'll learn exactly what you should do during the quake when you're at home, in the office, in a classroom or other possible locations.

Learn how to make your home safe to prevent injuries and see first-hand what should go into a disaster survival kit. A brief overview of the USC Emergency Response Plan will also be covered along with other tips to keep yourself and your family safe.

Seminar taught by Steve Goldfarb from the USC Office of Fire Safety & Emergency Planning.
