

TO: Faculty and Staff

There are many staff members at USC whose extraordinary performance positively and profoundly impacts the quality of life at the University for our students, fellow staff members, faculty, alumni, parents, donors, patients, neighbors, and other members of the Trojan Family. Often, while their contributions are well known to those within their departments, those accomplishments are not publically recognized by the broader university community.

In 1986, the Staff Assembly and the Staff Club jointly instituted a Staff Monthly Recognition Award to honor staff members and offer public recognition for their extraordinary job performance. I urge you to take a moment to think about those staff members who have made a difference in your life and to submit a nomination.

To learn more about the award, read about prior recipients, and to download a nomination form, please use the link below.
