

Call for Nominations: 2009 Provost's Prize for Teaching with Technology

The Provost's Prize for Teaching with Technology honors faculty by recognizing outstanding achievements in teaching through the incorporation of technology into courses and curricula. The prize will be awarded to up to two USC faculty members. Each recipient will receive \$5,000.

Eligibility:

Candidates must be USC faculty members; candidates are not required to have tenure-track teaching appointments. Candidates may be nominated by colleagues, students, staff, and/or USC alumni. Candidates may also nominate themselves. Current members of the Technology Enhanced Learning (TEL) Faculty Advisory Committee are not eligible.

Selection Process:

The TEL Faculty Advisory Committee along with the previous year's Prize recipients will make the final award decision. Applicants and awardees will be notified in April. The award will be presented at a ceremony on Tuesday, May 5, 2009, at the **2009 Teaching with Technology** conference.

The Teaching with Technology award will be evaluated on the quality of the nomination narrative and the supporting materials outlined below.

Nomination Deadline/Timeline:

All nominations are due on or before **Monday, April 6, 2009**, via email to teldl@usc.edu. Late nominations cannot be considered.

Nomination Narrative:

Please provide a maximum two-page response to the following questions:

1. To what extent were learning technologies incorporated into the course?
2. How did the technology or technologies facilitate student learning?
3. Can the use of the technology in the course be sustained or replicated in other courses?
4. How did the instructor share experiences associated with the technologies and the relevant best practices with colleagues, the wider university, or across the discipline?

Nomination Requirements:

The following descriptions will be required for nominations:

- Completion of the maximum two-page nomination narrative (above).
- A syllabus for the course(s) in which technology was incorporated (if applicable).
- A bulleted list of the goal(s) the technology solution was addressing and the technologies/tools used.
- Contact information for a faculty colleague reference and an IT staff member in the academic unit, who is familiar with the course or project. Please include name, title, unit, telephone, and email.

For additional information, please call Otto Khera at 213-821-3049, email khera@usc.edu or teldl@usc.edu.
