Jean-Lou Chameau is serving as the eighth president of the California Institute of Technology. Chameau received his secondary and undergraduate education in France and his graduate education in civil engineering from Stanford University. He currently serves on the boards of directors for MTS Systems Corporation, the Academic Research Council of Singapore, the Council on Competitiveness, and l’Ecole Polytechnique.

Chameau’s technical interests include sustainable technology; environmental geotechnology; soil dynamics; earthquake engineering; and liquefaction of soils. He was the recipient of a National Science Foundation Presidential Young Investigator Award, the ASCE Arthur Casagrande Award, the Rodney Chipp Memorial Award from the Society of Women Engineers, and the Prix Nessim Habif from the Ecole Nationale Supérieure des Arts-et-Métiers.

Distinguished Lecture in Civil and Environmental Engineering

Jean-Pierre Bardet, Chair and Sonny Astani, Department of Civil and Environmental Engineering

Invite you to attend the Albert Dorman Lecture by Jean-Lou Chameau, President, California Institute of Technology

Presenting Green Campus and Education for Sustainability

Thursday, April 24, 2008
