

MLA DENTAL SECTION BOOKLIST

2002/2003

(First Updated Revision: July 8, 2003)

This site contains the revised, final core list of book and journal titles recommended for acquisition by the Dental Section of the Medical Library Association (MLA) for support of clinical dentistry. The list is an update of the Dental Section's "A basic list of recommended books and journals for support of clinical dentistry in a nondental library" (Bull Med Libr Assoc 1997;85(3):233-38). A committee of the Dental Section developed this list. Committee members are Frank Mason, chair, John Glueckert, and Luis Gonzalez.

The booklist includes 179 book titles (divided into 32 subjects) and 86 journals. When available, the web site or page for each dental journal is provided. As of May 2003 all book titles on the list are available for purchase (or for free for a couple of titles).

Every effort was made to provide accurate and current information about each book and journal title including ISSN or ISBN, publisher, pricing, as well as edition and copyright year. The Dental Section would appreciate hearing from colleagues if they find any errors. Please send this information to Frank Mason at fmason@usc.edu; by fax at 213/748-8565; or postal mail c/o USC Wilson Dental Library, DEN-21, University Park MC-0641, Los Angeles, CA 90089-0641. Thank you.

**MLA Dental Section Booklist for a Library Supporting a Dental Program
or Dental Service**

Following are book titles recommended by dental librarians for a core resource dental collection. This core collection is to support the information and research needs of the oral health care provider (student and practitioner). This collection can be a part of a larger health sciences library or a part of a separate dental library, or, housed in a hospital or departmental library.

The selection criteria are:

- Current English-language title still in-print and available
- Established, authoritative author(s) and publisher
- Meets the information and/or research needs on the subject for the oral health care provider (student and practitioner)
- May have been used as a recommended or required textbook for the subject in a teaching environment in the US and/or Canada (recommended criterion but not required)
- Title is available electronically on CD/DVD or on the Internet/WWW through the publisher or other provider (recommended criterion but not required)

An asterisk (*) before a title is a recommended first purchase title.
