

**DON'T MISS THIS "SOUND" WAVE!**

# 2009 QuikScience Music Challenge

## Do you love music?

Get into the groove! Get your musical group tuned up and start composing! Create an original prize winning song about the oceans and be featured at QuikScience events and on the web! The USC Wrigley Institute and Quiksilver, Inc. have created an exciting new activity in science education. The Music Challenge seeks young people to compose ocean-inspired music for the QuikScience Challenge. Help us promote ocean understanding and appreciation through music!

**Get your entries in by:  
February 13, 2009!**

**Win \$500!  
Two different  
categories!**

## Enter the 2009 QuikScience Music Challenge!

All middle and high school students enrolled in Southern California are eligible to enter. A team can consist of one to six students.\* Each song must be between 2-5 minutes in length and must be an original piece of work. Winning Teams will receive a \$500 cash prize for each category: Best Song with Lyrics and Best Instrumental Piece. Songs entered into The Music Competition may be used for promotion and will become the property of the USC Wrigley Institute and QuikSilver, Inc. Look for details on the QuikScience website.

*\*Students cannot be affiliated with the commercial music industry.*

**QUICKSILVER**  
foundation
