

Edison Challenge 2009

Edison Challenge Teacher Workshops Teacher Registration

(Only teachers from schools served by Southern California Edison are eligible)

Thank you for your interest in the Edison Challenge Teacher Workshops.

We have limited space on these workshops and those teachers who have registered a team in the Edison Challenge have first priority. However, there was room for teachers who did not advise a team last year and it may happen again this year.

Please leave your name, school and email address and we will contact you once we know how many slots remain open. Sending your name is not a commitment on your part, it just says that you would like to receive registration materials.

Teachers who register an Edison Challenge Team will receive registration for the Teacher Workshops automatically.

We are looking forward to a great year in the teacher workshops and hope you will be able to join us.
