Staff	7,834	7,797

## REPORT of INDEPENDENT AUDITORS

The Board of Trustees  
of the University of Southern California

In our opinion, the accompanying consolidated balance sheet and the related consolidated statements of activities, expenses, and cash flows, which appear on pages 3 through 17 of this financial report, present fairly, in all material respects, the consolidated financial position of the University of Southern California and its subsidiaries (the "university") at June 30, 2005, and the changes in their consolidated net assets, expenses, and cash flows for the year then ended in conformity with accounting principles generally accepted in the United States of America. These financial statements are the responsibility of the university's management; our responsibility is to express an opinion on these financial statements based on our audit. The prior year summarized comparative information has been derived from the university's 2004 financial statements; and in our report dated September 10, 2004, we expressed an unqualified opinion on those financial statements. We conducted our audit of these statements in accordance with auditing standards generally accepted in the United States of America, which require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

Los Angeles, California  
September 9, 2005

## CONSOLIDATED BALANCE SHEET

in thousands

	June 30 2005	June 30 2004
<b>A SSETS</b>

## NOTES to CONSOLIDATED FINANCIAL STATEMENTS

### NOTE 1

*Significant accounting policies followed by the University of Southern California are set forth below:*

The University of Southern California is a not-for-profit, major private research university. The financial statements have been prepared on the accrual basis and include the accounts of the University of Southern California and all wholly-owned subsidiaries. All material transactions between the university and its subsidiaries have been eliminated.

For financial reporting purposes, net assets and revenues, expense, gains, and losses are classified into one of three categories: unrestricted, temporarily restricted, or permanently restricted. These categories, as described below, are the method by which the Financial Accounting Standards Board has chosen to standardize the financial statements of all private not-for-profit institutions.

#### *Unrestricted net assets:*

*Education and general:* Education and general include the revenues and expenses associated with the principal educational mission of the university.

*Health care services:* Health care services are reflective of the revenues and expenses associated with the Health Care Consultation Center, the Professional Services Agreement with Los Angeles County, the Kenneth Norris Jr. Cancer Hospital (see Note 2) and USC Care, Inc., a contracting entity for the independent private practices and the professional services provided to affiliated hospitals.

#### *Sponsored research and departmental activities:*

Sponsored research agreements recognize revenue as it is earned through expenditure in accordance with the agreement. Any funding received in advance of expenditure is recorded as refundable advances. Departmental net assets include gifts to the university and its various schools and departments. The university has determined that any donor-imposed restrictions for current or developing programs and activities are generally met within the operating cycle of the university and, therefore, the university's policy is to record these net

assets as unrestricted. Internally designated net assets are those which have been appropriated by the Board of Trustees or designated by management.

#### *Unexpended plant and debt service funds:*

Unexpended plant and debt service net assets include gifts and income earned on unexpended balances for capital projects which are currently under construction and transfers from the operating budget to fund the debt service requirements for outstanding bonds, notes and mortgages payable. The university follows the policy of lifting the restrictions on contributions of cash or other assets received for the acquisition of long-lived assets when the long-lived assets begin construction or are acquired.

*Invested in plant:* Invested in plant assets, including collections of works of art and historical treasures, are stated at cost or fair value at the date of gift, less accumulated depreciation, computed on a straight-line basis over the estimated useful or component lives of the assets (equipment and library books useful lives ranging from 5 to 10 years and buildings component lives ranging from 5 to 50 years). Equipment is removed from the records at the time of disposal. The university follows the policy of recording contributions of long-lived assets directly in invested in plant assets instead of recognizing the gift over the useful life of the asset.

*Long-term investment:* Long-term investments include gifts and Board of Trustee designations to funds functioning as endowment, realized and unrealized gains and reinvested income (income earned in excess of the spending rule) on all endowment funds.

*Student loan:* Student loan net assets record lending activity to students utilizing university resources designated for that purpose.

#### *Temporarily restricted net assets:*

Gifts for which donor imposed restrictions have not been met (primarily future capital projects), charitable remainder unitrusts, pooled income funds, gift annuities and pledges receivable for which the ultimate purpose of the proceeds is not permanently restricted are included in temporarily

## NOTES to CONSOLIDATED FINANCIAL STATEMENTS

restricted net assets.

*Permanently restricted net assets:*

Gifts, charitable remainder unitrusts, pooled income funds, gift annuities and pledges receivable which require by donor restriction the investment of the corpus in perpetuity and only the income be made available for program operations in accordance with donor restrictions and gifts which have been donor stipulated to provide loans to students are included in permanently restricted net assets.

*Other accounting policies:*

The financial statements present expenses by functional classification in accordance with the overall service mission of the university. Each functional classification displays all expenses related to the underlying operations by natural classification. Depreciation expense is allocated based on square footage occupancy. Interest expense on external debt is allocated to the functional categories which have benefited from the proceeds of the external debt. Plant operations and maintenance represents space related costs which are allocated to the functional categories directly and/or based on the square footage occupancy.

Cash equivalents consist of resources invested in money market funds, bankers' acceptances and negotiable certificates of deposit, maturing within 30 days.

Investments are stated at market value except mortgages and gifts of real estate which are stated at cost or fair market value on the date of gift, in accordance with SFAS No. 124, Accounting for Certain Investments Held by Not-for-Profit Organizations. Net appreciation (depreciation) in the fair value of investments, which consists of the realized gains or losses and the unrealized appreciation (depreciation) on those investments, is shown in the statement of activities. Realized gains and losses upon the sale of investments are calculated using the specific identification method and trade date.

Diversified venture capital holdings and certain other limited partnership interests are invested in both publicly and privately owned securities. The fair values of private investments are based on estimates and assumptions of the general partners or partnership valuation committees in the absence of readily determinable market values, generally at March 31, prior to the university's fiscal year end. Such valuations generally reflect discounts for illiquidity and consider variables such as financial performance of investments, recent sales prices of investments and other pertinent information. The private investments have a high concentration of pre-initial public offering securities, subjecting these investments to market value volatility. For the year ended June 30, 2005, included in the net appreciation in fair value of investments of \$338,827,000 on the Consolidated Statement of Activities is \$111,287,000 of net appreciation related to venture capital holdings and certain other limited partnership interests.

Inventories are valued at the lower of cost (first in, first out) or market.

The university receives federal reimbursement for a portion of the costs of its facilities and equipment used in organized sponsored research. The Office of Management and Budget, Circular A-21, establishes principles for determining such reimbursable costs, requires conformity of the lives and methods used for federal cost reimbursement accounting and financial reporting purposes. The university's policies and procedures are in conformity with these principles.

Student tuition and fees are recorded as revenues during the year the related academic services are rendered. Student tuition and fees received in advance of services to be rendered are recorded as deferred revenue.

The actuarial liability for annuities payable include gift annuities, unitrusts, pooled income funds and life estates which are based on the present value of future payments using discount rates ranging from 3.3% to 7.5% and 1994 Group Annuity Tables.

## NOTES to CONSOLIDATED FINANCIAL STATEMENTS

In accordance with the university's Revenue Center Management (RCM) policy, educational and general activities are reflective of the performance of a balanced operating budget for the year and any surplus at the end of the year is transferred to internally designated departmental assets. In accordance with RCM policy, operating units with educational and general activities which result in deficit balances are required at the end of the year to transfer departmentally designated assets sufficient to fund the deficit balance.

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from these estimates.

The financial statements include certain prior-year summarized comparative information in total but not by net asset category. Such information does not include sufficient detail to constitute a presentation in conformity with accounting principles generally accepted in the United States of America. Accordingly, such information should be read in conjunction with the university's financial statements for the year ended June 30, 2004 from which the summarized financial information was derived. Certain reclassifications have been made to summarized financial information for comparative purposes.

**NOTE 2**

The USC/Norris Cancer Center Foundation (Foundation), formerly Kenneth Norris Jr. Cancer Hospital (Hospital), is a not-for-profit public benefit corporation organized under the laws of the State of California whose sole corporate member is the University of Southern California. Effective December 16, 2003, the university completed the sale of the Hospital operations and certain tangible assets for \$35,000,000 consisting of cash and a note receivable, to an unaffiliated third party (Buyer). Subsequent to the sale of the Hospital

operations, the not-for-profit purpose of the Hospital was changed to create the Foundation. The purpose of the Foundation is to provide funding for inpatient and outpatient cancer care as well as clinical, therapeutic, specimen and prevention research trials that provide cancer care. The proceeds from the sale of the Hospital are used to fund the Foundation as required by the Attorney General for the State of California.

In accordance with SFAS No. 144, Accounting for the Impairment or Disposal of Long-Lived Assets, the results of operations for the Hospital have been included in discontinued operations on the Statement of Activities.

A portion of the Hospital's revenue from health care services is derived from funds provided on behalf of patients under federal programs. Revenues under the programs are dependent upon federal governmental reimbursement principles and policies. Funds received are subject to audit which could result in retroactive adjustments. Management believes that it has properly applied these principles and policies in the determination of net revenue from these programs.

The Hospital has agreements with third-party payors, including health maintenance organizations, that provide payment for health care services at amounts different from standard rates established by the Hospital. The Hospital's health care services revenue is reported net of contractual allowances from third-party payors and others for services rendered, and further adjusted for estimates of uncollectible amounts. As of June 30, 2004 and 2005, the Hospital has net receivables outstanding of approximately \$2,500,000 and \$0, respectively.

During 2001, the Hospital entered into a five-year agreement with an affiliate of the Buyer to manage the day-to-day operations of the Hospital. This agreement was terminated on the effective date of the sale of the Hospital.

			400,872
Less current portion of long-term debt			2,910
			<u>\$397,962</u>

Principal payment requirements relating to bonds, notes and mortgages payable, after giving effect to refunding, for the next five fiscal years are approximately: 2006 \$2,910,000; 2007 \$3,070,000; 2008 \$3,245,000; 2009 \$6,430,000; 2010 \$3,610,000.

Interest payments for fiscal year 2005 were \$18,684,000.

The bond agreements contain certain restrictive covenants including the requirement to maintain a designated amount of available assets, as defined in the agreements.

On June 16, 2005, the university converted CEFA Series 2003C from a variable rate bond issue to long-term fixed rate with a 5% coupon.

On July 14, 2005, the university issued \$66,545,000 of CEFA Series 2005 bonds. These proceeds were deposited into a refunding escrow account, which will be used to pay interest, principal and redemption premium for a portion of CEFA Series 1997A and all of CEFA Series 1997C bonds.

NOTES to CONSOLIDATED FINANCIAL STATEMENTS

NOTE 7

Financial aid is awarded to students based on need and merit. Financial aid does not include payments made to students for services rendered to the university. Financial aid for the year ended June 30, 2005 consists of the following (in thousands):

	Undergraduate	Graduate	Total
Institutional scholarships	\$140,226	\$64,043	\$204,269
Endowed scholarships	14,543	6,642	21,185
External financial aid	15,447	7,054	22,501
	<u>\$170,216</u>	<u>\$77,739</u>	<u>\$247,955</u>

NOTE 8

Endowment net assets are subject to the restrictions of gift instruments requiring that the principal be invested in perpetuity and only the income be utilized for current and future needs. Long-term investment net assets (funds functioning as endowment and departmentally designated funds) have been established from restricted gifts whose restrictions have been met and unrestricted gifts which have been designated by the Board of Trustees or management for the same purpose as endowment. The university also has a beneficial interest in the net income earned from assets which are held and managed by other trustees.

Endowment and long-term investment net assets functioning as endowment are summarized as follows (in thousands):

	Endowment	Funds functioning as endowment	Departmentally designated funds	Total
Pooled	\$862,829	\$1,461,874	\$8,825	\$2,333,528
Non-pooled	86,717	325,806		412,523
	<u>\$949,546</u>	<u>\$1,787,680</u>	<u>\$8,825</u>	<u>\$2,746,051</u>

Pooled investments represent endowment and long-term investment net assets which have been commingled in a unitized pool (unit market value basis) for purposes of investment. The pool is comprised of bonds (11%), stocks (52%), international investments (24%), venture capital (11%) and other investments (2%). Access to or liquidation from the pool is on the basis of the market value per unit on the preceding monthly valuation date. The unit market value at June 30, 2005 was \$515.13.

The university utilizes a spending rule for its pooled endowment in order to maximize the current and long-term investments of the endowment pool. The spending rule determines the endowment income to be distributed currently for spending with the provision that any amounts remaining after the distribution be transferred and reinvested in the endowment pool as funds functioning as endowment.

For the 2005 fiscal year, the Board of Trustees approved current distribution of 100% of the prior year's payout, within a minimum of 4% and a maximum of 6% of the average market value for the previous 12 calendar quarters. Under the provisions of the spending rule, \$22.88 was distributed to each time-weighted unit for a total spending rule allocation of \$102,141,000. Investment income amounting to \$9.74 per time weighted unit was earned, totaling \$43,472,000, and \$58,668,000 was appropriated for current operations from cumulative gains of pooled investments. Endowment pool earnings allocated for spending in fiscal year 2005 represent 4.1% of the market value of the endowment pool at June 30, 2005. Total earnings allocated for spending in fiscal year 2005 represent 3.8% of the market value of total endowment at June 30, 2005.

Approximately \$12,657,000 of the university's unrestricted long-term investments have been designated to support student loans.

NOTES to CONSOLIDATED FINANCIAL STATEMENTS

NOTE 9

Unconditional promises are included in the consolidated financial statements as pledges receivable and revenue of the appropriate net asset category. Pledges are recorded after discounting at 6% to the present value of the future cash flows.

Unconditional promises are expected to be realized in the following periods (in thousands):

In one year or less	\$17,942
Between one year and five years	47,231
More than five years	145,967
Less: discount of \$51,882	
and allowance of \$8,175	(60,058)
	<u>\$151,082</u>

Pledges receivable at June 30, 2005 have the following restrictions (in thousands):

Endowment for departmental programs and activities	\$32,186
Endowment for scholarship	2,037
Building construction	6,761
Departmental programs and activities	110,098
	<u>\$151,082</u>

NOTE 10

Executed contracts, grants, subcontracts and cooperative agreements for future sponsored research activity which are not reflected in the consolidated financial statements at June 30, 2005 are summarized as follows (in thousands):

Current sponsored awards	\$303,763
Executed grants and contracts for future periods	500,292
	<u>\$804,055</u>

NOTE 11

At June 30, 2005, internal loans for capital investment were \$207,827,000 which are repaid through nonmandatory transfers from the operating budget to unexpended plant within unrestricted net assets. The maturity dates range from 2006 to 2034 with various interest rates.

Internal loans maturing within each of the next five fiscal years range from \$13.1 million to \$23.1 million.

NOTE 12

Contractual commitments for educational plant amounted to approximately \$215,110,000 at June 30, 2005. It is expected that the resources to satisfy these commitments will be provided from certain unexpended plant net assets, anticipated gifts and/or debt proceeds.

During the year ended June 30, 2001, the university entered into an agreement with the County of Los Angeles to provide professional services at LAC+USC Medical Center. Under the terms of the agreement the contract automatically renewed on an annual basis unless either party gives four years' notice of the termination.

NOTES to CONSOLIDATED FINANCIAL STATEMENTS

NOTE 13

Retirement benefits for exempt employees are provided through the Teachers Insurance and Annuity Association and the College Retirement Equities Fund, The Vanguard Group, AIG SunAmerica, Fidelity Investments and Prudential Financial. Under these defined contribution plans, the university and plan participants make monthly contributions to purchase individual, fixed or variable annuities equivalent to retirement benefits earned or to participate in a variety of mutual funds or a fixed income fund. Benefits commence upon retirement and pre-retirement survivor death benefits are also provided. Charges to education and general activities expenses for the university's share of costs were approximately \$56,588,000 during the year ended June 30, 2005.

Retirement benefits for non-exempt employees are provided through a noncontributory defined benefit pension plan. The following table sets forth the plan's funded status at June 30, 2005 (in thousands):

Benefit cost	\$5,111
Employer contribution	\$10,250
Benefits paid	\$3,119
Accumulated benefit obligation at end of year	\$142,136
Projected benefit obligation	\$162,632
Fair value of plan assets	145,393
Funded status	(\$17,239)

Items recognized in the consolidated balance sheet:	
Prepaid benefit cost	\$41,207

Weighted-average assumptions:	
Discount rate	5.10%
Expected return on plan assets	8.00%
Rate of compensation increase	5.00%

The overall expected rate of return on assets of 8% is based on historical returns of the plan, as well as long-term return assumptions given the plan's asset allocation.

The pension plan's weighted average asset allocations, by asset category, are as follows:

Asset Category	June 30, 2005	Target at June 30, 2005
Equity securities	64.8%	60.0%
Debt securities	31.9%	40.0%
Other	3.3%	0.0%
TOTAL	100.0%	100.0%

No contribution to the pension plan is required during the fiscal year ending June 30, 2006. The university may make discretionary contributions to its pension plan during the next fiscal year. This will be reassessed during the year.

The following benefit payments, which reflect expected future service, as appropriate, are expected to be paid (in thousands):

Fiscal Year Ending June 30,	
2006	\$3,571
2007	\$4,069
2008	\$4,555
2009	\$5,067
2010	\$5,720
2011 - 2015	\$37,195

NOTES to CONSOLIDATED FINANCIAL STATEMENTS

NOTE 14

Statement of Financial Accounting Standards (SFAS) No. 106, Employers' Accounting for Post-retirement Benefits Other Than Pensions, requires an employer to disclose information in its financial statements about the obligation to provide post-retirement benefits and the cost of providing those benefits. The university established a defined benefit post-retirement health care plan that provides medical coverage to retirees (and their dependents) who retired under an incentive program in 1997. The cost of retiree and dependent medical benefits will be paid entirely by the university over the next two years.

The following table sets forth the plan's funded status reconciled with the amount shown in the university's consolidated balance sheet at June 30, 2005 (in thousands):

Benefit cost	(\$61)
Employer contributions	\$500
Plan participant contributions	\$0
Benefits paid	\$500

Benefit obligation	\$1,208
Fair value of plan assets	0
Funded status	(\$1,208)

Accrued benefit cost recognized in the consolidated balance sheet	(\$2,314)
---	-----------

Weighted-average assumption:	
Discount rate	4.00%

For measurement purposes, a 6.0% annual rate of increase in the per capita cost of post-retirement medical benefits for the health maintenance organization and indemnity programs was assumed for 2005. These rates were assumed to decrease gradually to 5.5% by 2006 and remain at that level thereafter.

The following projected benefit payments and contributions are expected to be paid (in thousands):

Fiscal Year Ending June 30,	
2006	\$627
2007	\$630

NOTE 15

The university is contingently liable as guarantor on certain obligations relating to equipment loans, student and parent loans, and various campus organizations. The university receives funding or reimbursement from governmental agencies for various activities, which are subject to audit. In addition, certain litigation has been filed against the university and in the opinion of university management, after consultation with legal counsel, the liability, if any, for the aforementioned matters will not have a material effect on the university's financial position.

NOTE 16

The estimated fair value of the university's bonds, notes and mortgages payable was \$421,932,000 at June 30, 2005. This fair value was estimated based upon the discounted amount of future cash outflows using the rates offered to the university for debt of the same remaining maturities.

Determination of the fair value of notes receivable, which are primarily federally sponsored student loans with U.S. Government mandated interest rates and repayment terms and subject to significant restrictions as to their transfer or disposition, could not be made without incurring excessive costs.

Investments are carried at market value except for those for which market values are not readily determinable.

DEFINITIONS:

Direct Revenues and Direct Expenses in Revenue Centers include all categories displayed in the Summary of Budgeted Operating Revenues and Expenses.

Center Revenues are directly generated by the center less any financial aid paid from center funds.

The Undergraduate Student Aid is centrally administered and charged to academic centers on a pre-determined percent of undergraduate tuition. For fiscal year 2005-2006, the rate is 28%.

Indirect Revenues are the sum of Participation, Subvention, Academic Initiatives and Graduate Programs.

Participation is a tax on gross tuition revenue, recovery of indirect costs, sales and service and other sources. For fiscal year 2005-2006, the rate is 6.1%.

Subvention is allocated from centrally controlled funds to support university priorities.

Academic Initiatives is funding for specific activities for a limited time period.

Graduate Programs is funding provided to schools in support of graduate education. All PhD tuition is centralized and allocated to various schools based on academic priorities.

Indirect Expenses are the sum of Allocated Central Costs and Facilities Based and equal the net budgets of administrative centers (see Individual Administrative Centers 2005-2006 Budget by Presidential and Senior Vice Presidential Responsibility Area).

Allocated Central Costs are central administrative costs that benefit the university as a whole and are allocated to revenue centers.

Facilities Based Indirects are space related costs that can be linked directly to a center's occupancy.

*Independent Health Professions*

Ruth E. Weisberg  
*Fine Arts*

Yannis Yortsos  
*Viterbi School of Engineering*

Elizabeth M. Zelinski  
*Leonard Davis School of Gerontology*

## ROLE and MISSION *of the University of Southern California*

The central mission of the University of Southern California is the development of human beings and society as a whole through the cultivation and enrichment of the human mind and spirit. The principal means by which our mission is accomplished are teaching, research, artistic creation, professional practice and selected forms of public service.

Our first priority as faculty and staff is the education of our students, from freshmen to postdoctorals, through a broad array of academic, professional, extracurricular and athletic programs of the first rank. The integration of liberal and professional learning is one of USC's special strengths. We strive constantly for excellence in teaching knowledge and skills to our students, while at the same time helping them to acquire wisdom and insight, love of truth and beauty, moral discernment, understanding of self, and respect and appreciation for others.

Research of the highest quality by our faculty and students is fundamental to our mission. USC is one of a very small number of premier academic institutions in which research and teaching are inextricably intertwined, and on which the nation depends for a steady stream of new knowledge, art and technology. Our faculty are not simply teachers of the works of others, but active contributors to what is taught, thought and practiced throughout the world.

USC is pluralistic, welcoming outstanding men and women of every race, creed and background. We are a global institution in a global center, attracting

more international students over the years than any other American university. And we are private, unfettered by political control, strongly committed to academic freedom, and proud of our entrepreneurial heritage.

An extraordinary closeness and willingness to help one another are evident among USC students, alumni, faculty, and staff; indeed, for those within its compass the Trojan Family is a genuinely supportive community. Alumni, trustees, volunteers and friends of USC are essential to this family tradition, providing generous financial support, participating in university governance, and assisting students at every turn.

In our surrounding neighborhoods and around the globe, USC provides public leadership and public service in such diverse fields as health care, economic development, social welfare, scientific research, public policy and the arts. We also serve the public interest by being the largest private employer in the city of Los Angeles, as well as the city's largest export industry in the private sector.

USC has played a major role in the development of Southern California for more than a century, and plays an increasingly important role in the development of the nation and the world. We expect to continue to play these roles for many centuries to come. Thus our planning, commitments and fiscal policies are directed toward building quality and excellence in the long term.

*Adopted by the USC Board of Trustees,  
February 3, 1993*
